Proposal Content:

If the storyline is fictional, you would still be required to present realistic content for the fictional client.

1.**Organisation Overview:**

- Name: Sugar & Spice Oven
- The bakery was founded in early 2026 as small local bakery offering cakes, pastries, scones and breads.
- The mission of the bakery is to bring warmth and flavour to the community through freshly baked goods. The vision of this bakery is to become a trusted local bakery with a strong online presence.
- This bakery targets families, students, and professionals looking for affordable, fresh baked goods.

2. **Website Goals and Objectives:**

- The goal of this website is to showcase products, attract new customers, and provide contact information.
- The objectives: Is to build a responsive, user-friendly site, highlight bakery branding and enable customer interaction.
- KPIs: Website traffic, menu views and contact form submissions.

3. **Current Website Analysis (if applicable):**

- Currently, Sugar & Spice Oven does not have a website. Customers rely on word-of-mouth and walk-ins, which limits visibility.
- The lack of an online presence means potential customers cannot view products, check opening hours, or place inquiries online.
- This proposal addresses these weaknesses by creating a professional website to improve reach and customer engagement.

4. **Proposed Website Features and Functionality:**

- Pages: Home, About, Menu and Contact
- Functionality: Navigation bar, product gallery, contact form and prices.

5. **Design and User Experience:**

- Colour scheme: Warm tones (cream, brown and gold).
- Typography: Simple fonts (Arial and Georgia).

- Layout: Clean, minimal and easy to navigate.
- Clear menu links, consistent branding, and mobile-friendly.
